

# Unofficial Installation Scripts

Note: **ALL** scripts are deemed unofficial. That means official support will not be provided. The scripts are provided as-is and may not be updated or maintained by Ultra.cc. Clients are welcome to use and customize unofficial scripts for their unique needs and requirements. Unofficial support may be offered via [Discord](#) only and at the sole discretion of Ultra.cc staff. Only use these scripts if you are comfortable managing them, without official support.

In addition to the officially supported applications that can be installed from the [User Control Panel](#), we also provide a wide variety of [unofficial installation scripts](#). These scripts have been created for your convenience, to allow for easy installation of programming languages, applications and utility tools.
